

Residential 360 Degree Virtual Tour

Bo Visuals LLC is a digital visualization company, specializing in 3D architectural renderings, virtual tours (360), and video animation. In 2012, Bo Visuals established its offices in the US after gaining a respectable reputation among notorious real estate developers around the world.

Bo Visuals offers real estate professionals advanced visualization technology to enhance marketing for new developments, and major renovation projects. Subject professionals may include real estate developers, building managers, realestate marketing agencies, brokers, interior designers, architects, and contractors.

3D Architectural Computer Animation Rendering Company in New York

3D (Photorealistic) Rendering

The work consists of 3D modeling from client's drawings, texturing, mapping and lighting. Using high performing software 3DS MAX, Bo Visuals architects and graphic designers work in a very sophisticated and detailed fashion in order to produce client expectations.

360 Virtual Tour

360 Virtual Tour is a compilation of numerous 3D rendering that allow the viewer to visualize a room with all its details in 360 degrees. 360 can be viewed on a desktop (PC or MAC), tablet (IPAD) and smartphone (Iphone, Android).

New York Based

We have been serving the New York real estate community on a variety of projects ranging from renovations of existing multi-family buildings to complete new ground up developments for both residential and hotel use in the Manhattan, Brooklyn, and Queens areas.

Not only we understand the needs of the NY real estate market but also we understand the importance of local service for our clients. Our business development team is deeply involved both with the architect, contractors and all the other third parties involved in the real estate project.

Architects / Interior Designers

Enhance your design and creative presentations by visualizing your design intent with conceptual static renderings or photo realistic 3d virtual tours!

BO Visuals can act as a third party vendor with your client or as a subcontractor of your architecture and design firm.

We are specialized in working with quick turnaround times and make fast revisions weather they are conceptual, layouts or finishes.

Working with BO Visuals you can count on an extensive library of finishes and specifications, or you can dictate your own!

Brokers

Market your client's project in pre construction with our innovative 3d virtual tours and renderings.

We offer branded or non-branded video solution for your online marketing and client presentations!

Take advantage of our free consultation to see how we can help you achieve faster sales with minimal.
